

A Unicorn Mad Lib

One day, [1_____] and [2_____] were exploring the forest when they came across a/an [3_____] unicorn. It was standing under a large [4_____] and to their surprise, it started to talk. “[5_____]” said the unicorn.

[1_____] and [2_____] were [6_____] but they asked if they could help the unicorn in some way. “Why yes,” said the unicorn. “There is a fierce [7_____] that is causing chaos in the forest and I need to find a magical [8_____].”

They agreed to help and the unicorn said they could ride on its back if they gave it a small [9_____]. Once the unicorn had eaten the [9_____], it started to fly and they traveled to a large lake. In the middle of the lake was a very tiny island with a treasure chest. It was locked but [1_____], known for being very smart, said “use this [10_____].”

Sure enough, that helped open the lock immediately and they looked inside the treasure chest to find a/an [11_____] and [4_____]. They took the items and flew to the [7_____]'s den in under [12_____]. The [7_____] appeared and [2_____] quickly took the [4_____] and used it on the [7_____]'s [13_____]. The [7_____] cried in agony and apologized to the unicorn for its misbehavior.

The forest was saved and the unicorn gave [1_____] and [2_____] each a magical [14_____] to say thank you. And then just like that, the unicorn flew over a rainbow and out of sight.
